El Paraiso is, as the Spanish name suggests, a paradise. One of the Coast's established prestigious urbanizations, this community is made up of villas and flats and enjoys a peaceful setting, which is preserved by strict rules governing the type of development that can take place within its borders.

A fine four-star hotel, El Paraiso, located within the urbanization, is known for its health clinic which focuses on wellness therapies and relax. Also on site is an 18-hole golf course with its accompanying club and various tournaments, including a celebrity Pro-Am, that are held here every year. To complete the sporting topic, five courts are available at the tennis club and there is a lawn bowls club as well.

All amenities are available at the community's commercial center, which includes a bank, supermarkets, restaurants, car rental and an array of other professional services.

El Paraiso is located approximately 10 minutes (driving) from Marbella and the heat of Puerto Banús, heading west towards Estepona. Not too far away from Marbella centre, yet very privately and calmly located. The nearest airports are located in Málaga and Gibraltar, each of which can be reached in less than one hour.
